

Module More Like This

Uses the [Search and List from Unified Index](#) to provide similar documents by analyzing the content (not just categories and tags)

Uses the unified search to provide similar documents.

[Go to the source code](#)

Preferences required: feature_search

| Parameters | Accepted Values | Description | Default | Since |
|--------------------------|-----------------|--|---------|-------|
| <code>typefilters</code> | text | Comma-separated types to allow. | | |
| <code>textfilters</code> | text | Comma-separated text search filters to use. Use "=" to separate field and value. | | |
| <code>object</code> | text | The object id of the item. If none is provided, Tiki will attempt to resolve the current object. | | 16 |
| <code>type</code> | text | The object type of the item (eg. "trackeritem"). If none is provided, Tiki will attempt to resolve the current object. | | 16 |

Very powerful, when used with [Elasticsearch](#):
