

Module freetags_morelikethis

When viewing a wiki page, this [Module](#) displays a list of other wiki pages that have at least a given number of tags in common with the page being viewed. The feature [Freetags](#) must be activated. This module will be hidden when viewing objects other than wiki pages.

Usage

You will see it listed at *Admin > Modules > Assign new module > freetags_morelikethis (drop down)* ([tiki-admin_modules.php](#)).

You can assign a this [Module](#) to a lateral column (See [Module Admin](#) page if needed), or you can include it within a wiki page, using the [PluginModule](#). The assigned module looks like the example shown to the right.

Admin Options

In the Admin:Freetags page ([tiki-admin.php?page=freetags](#)), there are two option controls for this module in the "Tag Management" section, shown below.

The screenshot shows the "Tag Management" section of the Admin:Freetags page. It includes the following controls:

- Cleanup unused tags:** A button labeled "cleanup".
- More Like This/Get Similar Module**: A section with a dropdown menu set to "weighted".
- More Like This algorithm**: A dropdown menu currently showing "weighted".
- Basic algorithm - Minimum amount of tags in common**: A dropdown menu currently showing "1".
- Change preferences**: A button at the bottom of the section.

Parameters

Shows content with multiple tags in common.
