Plugin Category Path

This wiki plugin displays the full category path for the wiki page where the plugin is inserted.

Table of contents

Parameters

Show the full category path for a wiki page
Introduced in Tiki 1.
Go to the source code
Preferences required: feature_categories, wikiplugin_catpath

Parameters	Accepted Values	Description	Default	Since
`divider`		String used to separate the categories in the path. Default character is `>`.	`>`	1
`top`	(blank) y n	Show the top category as part of the path name (not shown by default)	no	1

Example

Let's say you had a page with the lyrics to the song *Hands on the Wheel*, and it is categorized by the singer and the composer, and that all pages with song lyrics on the site are categorized as **Songs**. Here's what the CATPATH plugin would produce on that page:

This code,

> **Example syntax**

    {catpath}

Would produce:

Songs > Singer > Willie Nelson
Songs > Composer > Bill Callery
