

Plugin Color Box

This [wiki plugin](#), introduced in [Tiki5](#), is used to display one image of a file gallery or image gallery and when you click on it, it opens a popup/slideshow of all the images of the same gallery. The slideshow is done by the [colorbox](#) library.

Parameters

Plugin Manager error: colorbox plugin not found

Example

This code:

```
{colorbox fgalId="6" thumb="y"}
```

Would produce on this site:

Tips

- To have a localized description, you can use the param `parsedescriptions` and use `{LANG(lang=en)}xxxx{LANG}{LANG=fr)}yyy{LANG}`
- Users require the [permission](#) `tiki_p_view_file_gallery` on the filegal referenced in the plugin.
