

Using Copyright Management

Use the [Copyright](#) feature to automatically include a copyright statement on specific pages, link to a full license page, and add the copyright information when printing.

1. Enable and configure the feature on the [Copyright Admin](#) page.
2. If enabled for [Wiki](#) pages:
 - Tiki will add the following statement at the bottom of each page, with a link to your **License Page**:

The content on this page is licensed under the terms of the Copyright License Page

- When editing wiki pages, the following Copyright fields appear:

A screenshot of a Tiki Wiki edit page. At the top, there are tabs for 'Edit page' (which is selected), 'Properties', and 'No Tabs'. Below the tabs, there's a 'Copyright' section with fields for 'Title' (with a redacted input field), 'Year' (with a redacted input field), and 'Authors' (with a redacted input field). Underneath that is a 'License' section with a dropdown menu set to 'Copyright License Page'. At the bottom of the page, there's a note with an exclamation icon labeled 'Important:' followed by 'Copyright Submission Notice'. A link 'Admin wiki preferences' is visible at the very bottom.

This allows users submitting content to attach a copyright notice to the page. The user enters the title of work being copyright (which may or may not be different to the page title), the year of copyright and the author(s) associated with the content.

Normal users can only add copyright notices to a page, and only administrators can delete or modify submitted ones. Copyright notices can then be recalled using the [Copyright Notice Plugin](#).

- When printing a page, Tiki will automatically include the full **License Page**.
3. If enabled for [Articles](#):
 4. If enabled for [Blogs](#):
 5. If enabled for [FAQs](#):

Editing Copyright Notices

The ©MS uses the permission `tiki_p_edit_copyrights` which allows users to access the copyrights edit page. To access the copyrights edit page for a particular page, go to the license page for that page and click on the link at the bottom of the page:

A screenshot of a copyright notice edit page. It shows a message: 'Created by: last modification: Tuesday 17 of , 2003 [16:48:51 BDT] by Ricardo' and 'To edit the copyright notices [click here](#)'. There is a small redacted area above the message.

If you have permissions this will take you to the copyright edits page where you can edit the copyright notices for that page:

A screenshot of the 'Copyright Admin' page. It lists two copyright notices. The first notice has 'Title: Netbook of Planes', 'Year: 2003', and 'Authors: Ricardo Gladwell, Gary Lubben, Steve Dunc'. The second notice has empty fields for 'Title', 'Year', and 'Authors'. On the right side of the list, there are 'edit', 'x up down', and 'add' buttons.

This page allows administrators to alter the order of copyright notices, edit their data or add new copyright notices.

To edit a copyright notice simply alter the information in the text boxes and click the 'edit' button on the right-hand side.

To delete a copyright notice click on the 'x' on the right-hand side.

To move a copyright notice's order click on 'up' or 'down' on the right-hand side.

To add a new copyright notice simply fill in the information in the empty text boxes at the bottom of this page, as you would adding a copyright notice in the wiki edit page above, and click the 'add' button.
