

Module Reading Time

This [Module](#) displays the estimated reading time for the words on a Wiki page (inner modules are excluded). To avoid displaying empty module on non wiki page object, set the module Visibility Section to wiki.

Usage

To use module **Reading Time** in a wiki page:

```
{module module="reading_time" wordsPerMinutes="200" minTimeThreshold="1"
minTimeThresholdText="Reading time: Less than a minute" maxTimeThreshold="30"
maxTimeThresholdText="Reading time: Less than a minute" timePrefixText="Approximate reading
time:" timePostfixText="min." timeMinutesOnly="n"}
```

Where: Displays the estimated reading time for the words on a Wiki page (inner modules are excluded). To avoid displaying empty module on non wiki page object, set the module Visibility,Section to wiki.

Preferences required: feature_wiki

Parameters	Accepted Values	Description	Default	Since
<code>maxTimeThreshold</code>	int	value in minutes above which it is not needed to display the time. Set to 0 for none.	30	
<code>maxTimeThresholdText</code>	text	Text displayed when the reading time is above the maximum threshold value.	Reading time: More than 30 minutes	
<code>minTimeThreshold</code>	int	value in minutes below which it is not needed to display the time. Set to 0 for none.	1	
<code>minTimeThresholdText</code>	text	Text displayed when the reading time is below the minimum threshold value.	Reading time: Less than a minute	
<code>timePostfixText</code>	text	Text displayed after the result (the reading time).	min.	
<code>timePrefixText</code>	text	Text displayed before the result (the reading time).	Approximate reading time:	
<code>wordsPerMinutes</code>	int	The number of words human can read per minute.	200	

<code>timeMinutesOnly</code>	(blank)	Will not displays the seconds and	n
	y	round up the result if the value is	
	n	bigger than 30s.	

Example

In the example below we pass in a wiki page the module Reading Time through the plugin module. So, this code:

```
{module module="reading_time" wordsPerMinutes="200" minTimeThreshold="1"
minTimeThresholdText="Reading time: Less than a minute" maxTimeThreshold="30"
maxTimeThresholdText="Reading time: Less than a minute" timePrefixText="Approximate reading
time:" timePostfixText="minutes" timeMinutesOnly="y"}
```

Produces on this site:

Reading Time

Reading time: Less than a minute
