

Index of Modules

The following pages explain and illustrate the function of each module as well as the syntax to be used. Any parameters specific to that module are also explained. Parameters common to all or many modules are explained at [Module Settings Interface](#).

An alphabetical table of contents follows. Below that is an [index by category](#).

Alphabetical Index of Modules

- [Module action_calendar](#) : *Display a calendar of system events*
- [Module action_similarcontent](#) : *List similar content based on Freetags*
- [Module logo](#) : *Display site logo, title and subtitle*
- [Module map_edit_features](#) : *Allows shapes to be drawn over the map.*
- [Module menu](#) : *Displays a menu or a structure as a menu*
- [Module share](#) : *Display links to different Social Network (like, Share, Tweet, etc.)*
- [Module share](#) : *Display links to different Social Network (like, Share, Tweet, etc.)*
- [Module Google AdSense](#) : *Add a Google AdSense advertisement to your Tiki*
- [Module articles](#) : *Display a list of articles*
- [Module assistant](#) : *Simple welcome module with links to help new admins*
- [Module article_archives](#) : *Display articles by month*
- [Module calendar_new](#) : *Display a small calendar*
- [Module categories](#) : *Display links to categories in a tree*
- [Module category_transition](#) : *Display controls to trigger category transitions*
- [Module change_category](#) : *Allow users to change the category of a page*
- [Module breadcrumb](#) : *List most recently visited pages*
- [Module comm_received_objects](#) : *Displays the number of pages received (via Communications).*
- [Module credits](#) : *Shows the credits a user has.*
- [Module directory_last_sites](#) : *Displays the specified number of the directory sites most recently added.*
- [Module directory_stats](#) : *Displays statistics about the directory, including the number of sites validated and to validate, the number of categories, of searches and of visited links.*
- [Module directory_top_sites](#) : *Displays the specified number of the directory sites from most visited to least visited.*
- [Module facebook](#) : *Shows the Wall of a user*
- [Module featured_links](#) : *Displays the site's first featured links.*
- [Module forums_best_voted_topics](#) : *Displays the specified number of the forum topics with the best ratings.*
- [Module forums_last_posts](#) : *Displays the latest forum posts.*
- [Module forums_most_commented_forums](#) : *Display the specified number of the forums with the most comments.*
- [Module forums_most_read_topics](#) : *Display the specified number of the forum topics with the most reads.*
- [Module forums_most_visited_forums](#) : *Display the specified number of the forums with the most visits.*
- [Module freetags_current](#) : *Displays current tags on wiki pages and enables adding tags if permissions allow.*
- [Module freetags_morelikethis](#) : *List pages with tags in common with the page being viewed*
- [Module freetags_most_popular](#) : *Displays the most popular freetags in a list or cloud*
- [Module freetags_prefered](#) : *Displays to registered users the tags they prefer, based on the number of objects they tagged. Greater preference is indicated by a larger text size.*
- [Module google](#) : *Displays a Google search box for searching the site or the web*
- [Module groups_emulation](#) : *Enables temporarily changing one's group memberships to see how users in fewer groups experience the site.*
- [Module last_actions](#) : *Displays the specified number of last actions.*
- [Module last_blog_posts](#) : *Lists the specified number of blogs posts from newest to oldest.*
- [Module last_category_objects](#) : *Displays the most recently updated objects in a category*
- [Module last_created_blogs](#) : *Displays the specified number of blogs from newest to oldest.*

- [Module last_created_faqs](#) : Displays a list of most recently created FAQs
- [Module last_created_quizzes](#) : Displays the specified number of quizzes from newest to oldest.
- [Module last_files](#) : List the specified number of files, starting from the most recently added.
- [Module last_file_galleries](#) : Display the specified number of file galleries, starting from the most recently modified.
- [Module last_modified_blogs](#) : Displays the specified number of blogs, starting from the most recently modified.
- [Module last_modif_events](#) : Display the specified number of calendar events, starting from the most recently modified.
- [Module last_modif_pages](#) : List the specified number of pages, starting from the most recently modified.
- [Module last_submissions](#) :
- [Module last_tracker_comments](#) : Lists the specified number of tracker comments (optionally restricting to those in a specific tracker or tracker item) starting from the most recently posted.
- [Module last_tracker_items](#) : Displays the value of a field of the specified number of tracker items. If the specified tracker has no main field, either Field name or Field identifier is required.
- [Module last_validated_faq_questions](#) : Displays the specified number of validated questions FAQs from newest to oldest.
- [Module last_visitors](#) : Displays the most recent registered visitors to the site
- [Module last_youtube_playlist_videos](#) : Display a YouTube playlist
- [Module live_support](#) : Tells users whether a live support operator is present and allows them to request support if possible. If the user is an operator, links to the operator console.
- [Module list](#) : A simple wrapper for PluginList as a module
- [Module login_box](#) : Displays a login box
- [Module menu](#) : Displays a menu or a structure as a menu
- [Module menupage](#) : Displays the content of a wiki page as a menu
- [Module messages_unread_messages](#) : Displays to users their number of new inter-user messages and a link to their message box.
- [Module minichat](#) : Small live chat box
- [Module months_links](#) : Link to articles or blog posts for the current month and those preceding it.
- [Module num_submissions](#) : Displays the number of article submissions waiting examination and a link to the list.
- [Module old_articles](#) : Displays the specified number of old articles (which do not show on articles home page anymore).
- [Module online_users](#) : Display information about users currently logged in.
- [Module permissions](#) : List of active permissions for current object
- [module perspective](#) : Enables to change current perspective.
- [module poweredby](#) : Powered by Tiki, and others
- [Module quick_edit](#) : Enables to quickly create or edit Wiki pages.
- [Module quickadmin](#) : Some helpful tools for administrators.
- [Module adminbar](#) : Consolidated admin bar with an easy access to quick admin links, recent changes, and important admin features
- [Module random_pages](#) : Displays the specified number of random wiki pages.
- [Module register](#) : Permit anonymous visitors to create an account on the site.
- [Module search_wiki_page](#) : Search for a wiki page by name.
- [Module semantic_links](#) : List the relationships known for the Wiki page displayed. For each relation type contained in the page, it lists all the pages it links to or gets linked from.
- [Module shoutbox](#) : The shoutbox is a quick messaging tool. Messages reload each time the page changes. Anyone with the right permission can see all messages. Another permission allows messages to be sent..
- [Module since_last_visit](#) : Displays to logged-in users the number of new or updated objects since their last login date and time.
- [Module since_last_visit_new](#) : Displays to logged-in users new or updated objects since a point in time, by default their last login date and time.
- [Module switch_lang](#) : Displays a language picker to change the language of the site.
- [Module switch_color_mode](#) : Switch between light, dark, and browser color scheme preference

- [Module switch_theme](#) : Enables to quickly change the theme for the user.
- [Module top_active_blogs](#) : Displays the specified number of blogs with links to them, from the most active one to the least.
- [Module top_articles](#) : Lists the specified number of articles with links to them, from the most visited one to the least.
- [Module top_files](#) : Displays the specified number of files with links to them, starting with the one with most hits.
- [Module top_file_galleries](#) : Displays the specified number of file galleries with links to them, starting with the one with most hits.
- [Module top_forum_posters](#) : Displays the specified number of users who posted to forums, starting with the one having most posts.
- [Module top_objects](#) : Displays the specified number of objects, starting with the one having the most hits.
- [Module top_pages](#) : Displays the specified number of wiki pages with links to them, starting with the one having the most hits.
- [Module top_quizzes](#) : Displays the specified number of quizzes with links to them, starting with the one having the most hits.
- [Module top_visited_blogs](#) : Display the specified number of blogs with links to them, from the most visited one to the least.
- [Module top_visited_faqs](#) : Display the specified number of FAQs with links to them, from the most visited one to the least.
- [Module trackerhelp](#) : Display the fields of a tracker (name and identifier)
- [Module twitter](#) : Shows the tweets from the Twitter timeline of a user
- [Module upcoming_events](#) : Lists the specified number of calendar events, ordered by their start date.
- [Module user_blogs](#) : Displays to registered users their blogs.
- [Module user_bookmarks](#) : Lightweight interface to user bookmarks, enabling to view them concisely, do some manipulations and bookmark the page being viewed
- [Module user_pages](#) : Displays to registered users the specified number of wiki pages which they were the last to edit.
- [Module user_tasks](#) : Lightweight interface to user tasks, enabling to view them concisely and do some manipulations
- [Module users_list](#) : Display a list of users with optional extra information from each.
- [Module users_own_rank](#) : Display the logged user's rank and score.
- [Module users_rank](#) : Display the specified number of users and their score, starting from the one with the highest score.
- [Module whats_related](#) : Lists objects which share a category with the viewed object.
- [Module who_is_there](#) : Display information about users currently logged in.
- [Module wiki_last_comments](#) : Lists the specified number of comments starting from the most recently posted.
- [Module youtube](#) : Displays YouTube videos and or a link to a YouTube user's page.
- [Module zone](#) : Can contain other modules so can be used as a Bootstrap navbar object, for example.
- [Module zotero](#) : Search the group's Zotero library for entries with the specified tags

Modules by Category

Feature Modules

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module articles	articles	Articles		title, type, topicId, topic, start

Module Name ¹	Module Title ²	Description	Parameters	Versions	
Module breadcrumb	breadcrumb	Recently visited pages	Lists recently-visited pages.	maxlen	
Module calendar	calendar	Calendar-Filter			
Module calendar_new	calendar	Calendar-Filter		3.x, 4.x, 5.x, 6.x	
Module categories	categories		Displays category objects.	type, deep, categId, style	1.10
Module change_category	change_category			id, shy (show only if page is in categ)	
Module comm_received_objects	comm_received_objects				
Module current_activity	current_activity		Display users who are currently editing a page or a tracker		
Module directory_stats	directory_stats	Directory stats			
Module featured_links	featured_links	Featured links	Displays featured links.		
Module minichat	minichat	Mini chat	Shows a small box for chat updated at real time without browser refresh.		
Module package	package		A module that shows content from a Tiki Package View		
Module permissions	permission		List of active permissions for current object		

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module random_pages	random_pages	Online users	Displays a link to a random wiki page.	
Module random_images	random_images		Displays a random image thumbnail.	galleryId
Module shoutbox	shoutbox		post comments in to the module for all to see	tooltip
Module who_is_there	who_is_there		Lists usernames of logged-in users.	cluster
Module login_box	login_box		The login/logout box	input_size (since 1.10)=size in characters of the text input box
Module online_users	online_users		Lists real names of logged-in users.	

The jQuery Sortable Tables feature must be activated for the sort feature to work.

User's Configuration Modules

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module switch_lang	switch_lang		Switch site language (dropdown list selector).	title, nobox, flip, decorations
Module switch_lang2	switch_lang2		Switch site language (select among text links).	title, nobox, flip, decorations

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module switch_lang_admin		Displays a language picker to change the language of admin site	title, nobox, flip, decorations	
Module switch_theme	switch_theme		Allows users to switch site theme	
Module switch_color_mode	switch_color_mode		Allows users to switch site color mode (light, dark, auto (and, coming soon, custom)	

The jQuery Sortable Tables feature must be activated for the sort feature to work.

Navigation Modules

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module directory_last_sites	directory_last_sites		Lists latest sites links added to Directory.	nonums, absurl ([y n] - If not set, default = relative)
Module directory_stats	directory_stats		Shows Directory statistics.	
Module directory_top_sites	directory_top_sites		Shows most-visited sites in Directory.	
Module list	list		List objects from the Unified Index	
Module whats_related	whats_related		Lists objects in same category as current page/object.	

The jQuery Sortable Tables feature must be activated for the sort feature to work.

Recent Changes Modules

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module forums_last_posts	forums_last_posts		Lists recent forum posts.	nonums
Module forums_last_topics	forums_last_topics		Lists recent new forum topics. Or in version 1.10, also recently replied to forum topics	nonums, absurl
Module since_last_visit	since_last_visit		Shows changes in various features since last login	
Module since_last_visit_new	since_last_visit_new		Shows changes in various features since last login	showuser, showtracker
Module wiki_last_comments	wiki_last_comments		Most recently added wiki comments	moretooltips, nonums
Module last_actions	last_actions		Displays latest users' actions.	showuser, showdate, nonums, maxlen
Module last_articles	last_articles		Displays latest articles.	type, topicId. topic, nonums, absurl
Module last_blog_posts	last_blog_posts		display latest blog posts	blogid, title, nonums
Module last_category_objects	last_category_objects		Recently categorized objects	type, id
Module last_created_blogs	last_created_blogs		Recently created blogs	nonums

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module last_created_faqs	last_created_faqs	Last Sites	Recently created FAQs	nonums
Module last_created_quizzes	last_created_quizzes		Recently created Quiz	nonums
Module directory_last_sites	directory_last_sites		Recently added links in Directory.	
Module last_files	last_files		Displays files uploaded since last visit	galleryId, nonums
Module last_file_galleries	last_file_galleries		Displays file galleries modified since last visit	
Module last_image_galleries	last_image_galleries		Displays latest Image Gallery modified since last visit	nonums
Module last_images	last_images		Lists most-recent image uploads.	galleryId, nonums
Module last_images_th	last_images_th		Shows thumbnails of most-recent image uploads.	galleryId
Module last_modified_blogs	last_modified_blogs		Display blogs modified since last visit.	nonums
Module last_modif_events	last_modif_events			calendarId, maxlen, nonums
Module last_modif_pages	last_modif_pages		Displays most recently edited wiki pages	minor, maxlen, nonums, absurl

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module last_modif_tracker_items	last_modif_tracker_items		Lists the tracker items added since last visit	name, trackerId, nonums
Module last_submissions	last_submissions		Lists the tracker items added since last visit.	nonums
Module last_tracker_comments	last_tracker_comments			trackerId, itemId, nonums
Module last_tracker_items	last_tracker_items		Lists the last tracker items added.	status, name, trackerId, nonums
Module last_visitors	last_visitors		Lists recent logged-in visitors.	maxlen, nonums

The jQuery Sortable Tables feature must be activated for the sort feature to work.

"Best of" Modules

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module forums_best_voted_topics	forums_best_voted_topics	Top topics		nonums
Module forums_most_commented_forums	forums_most_commented_forums			nonums
Module forums_most_read_topics	forums_most_read_topics			nonums
Module forums_most_visited_forums	forums_most_visited_forums			nonums
Module top_active_blogs	top_active_blogs			nonums
Module top_articles	top_articles		Lists Articles by number of hits	nonums
Module top_files	top_files		Lists files by number of hits (downloads?)	nonums

Module Name ¹	Module Title ²	Description	Parameters	Versions	
Module top_file_galleries	top_file_galleries		Lists File Gallery	file galleries by number of hits.	nonums
Module top_forum_posters	top_forum_posters		Lists most-active forum posters.	nonums	
Module top_games	top_games		Lists Games by number of hits.	nonums	
Module top_images	top_images		Lists Wiki-Syntax Images	Images by number of hits.	nonums
Module top_images_th	top_images_th		Shows thumbnails of most-viewed images.		
Module top_image_galleries	top_image_galleries		Lists Image Gallery pages by number of hits.	nonums	
Module top_objects	top_objects		Lists most-viewed objects (pages, galleries, etc.).	nonums	
Module top_pages	top_pages		Lists Wiki pages by number of hits.	nonums	
Module top_quizzes	top_quizzes		Lists Quiz by number of hits.	nonums	
Module top_visited_blogs	top_visited_blogs		Lists Blog by number of hits.	nonums	
Module top_visited_faqs	top_visited_faqs		Lists FAQs by number of hits.	nonums	

The jQuery Sortable Tables feature must be activated for the sort feature to work.

Help and Support Modules

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module assistant	assistant	Tiki Assistant	Welcome message to admin of new Tiki installation.	
Module live_support	live_support		Starts the live support feature	

The jQuery Sortable Tables feature must be activated for the sort feature to work.

Search Modules

Module Name ¹	Module Title ²	Description	Parameters	Versions
<i>Module Name</i>	<i>Title</i>	<i>Short Description</i>	<i>Specific Params</i>	<i>tw release</i>
Module google	google	Google Search	Web search	
Module search_box	search_box		Search in entire site or by feature.	
Module search_last_rebuild_stats	search_last_rebuild_stats	Search Rebuild Stats	search_last_rebuild_stats	
Module search_new	search_new		Search in entire site or by feature.	
Module search_wiki_page	search_wiki_page		Search for wiki page name.	
Module websearch	websearch		Displays a simple form to perform a web search with choice on multiple search engines	

The jQuery Sortable Tables feature must be activated for the sort feature to work.

MyTiki Modules

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module user_blogs	user_blogs		Lists "my Blogs" from the MyTiki feature	nonums

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module user_bookmarks	user_bookmarks		Lists "my Bookmarks" from the MyTiki feature	
Module user_image_galleries	user_image_galleries		Lists "my Pages" from the MyTiki feature	nonums
Module user_pages	user_pages		Lists "my Pages" from the MyTiki feature	nonums
Module user_tasks	user_tasks		Lists tasks from the MyTiki feature	
Module messages_unread_messages	messages_unread_messages		Displays the number of new user messages	

The jQuery Sortable Tables feature must be activated for the sort feature to work.

Miscellaneous Modules

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module adminbar	adminbar	adminbar	Consolidated admin bar with an easy access to quick admin links, recent changes, and important admin features	
Module cookiesettings	cookiesettings	cookiesettings	Allows users to change their cookie consent preferences	
Module events	events	Current events	Displays calendar (?)	
Module git_detail	git_detail		GIT commit and last update information	

Module Name ¹	Module Title ²	Description	Parameters	Versions	
Module menupage	menupage		Displays a wiki page's content.	name	
Module num_submissions	num_submissions				
Module old_articles	old_articles				
Module quick_edit	quick_edit			title, templateId, submit, size, mod_quickedit_heading, categId	
Module recordrtc	recordrtc				
Module short_url	short_url		Creates or shows a short url for the visiting page		
Module wikistructure	wikistructure		Dynamic navigation menu created on the fly from a given structre toc	id, maxdepth (in theory, same as toc)	2.x, some params only in 3.0 like "maxdepth".
Module tail	tail		(used by devs)	file, title, max, reverse, filter	
Module upcoming_events	upcoming_events			calendarId, maxDays, maxlen, nonums, date_format	
Module action_similarcontent	action_similarcontent	Similar Content	Display similar content to current object using FreeTags	contentType	5.0
Module freetag	freetag		allows to add and remove tag from a current object		
Module freetags_current	freetags_current		displays the current tags of an object. Only for a wiki page.		
Module freetags_prefered	freetags_prefered		Shows the favorite tags of a user. The number of tags is the value of the parameter rows defined at the module assigment.		

Module Name ¹	Module Title ²	Description	Parameters	Versions
Module freetags_most_popular	freetags_most_popular		Shows the most popular tags. The number of tags is the value of the parameter rows defined at the module assignment.	
Module freetags_morelikethis	freetags_morelikethis		Shows the objects that have the same tags than an object. Only for a wiki page. The number of objects is the value of the parameter rows defined at the module assignment.	
Module pagetop_hero	pagetop_hero		An easy page-top hero section located in Tiki's topbar module zone	nobox
Module poll	poll		Displays a poll in a wiki page	pollId
Module reading_time	reading_time		Displays the estimated reading time for the words on a Wiki page (inner modules are excluded). To avoid displaying empty module on non wiki page object, set the module Visibility,Section to wiki	
Module xmpp	xmpp		Hold a chat session using XMPP (uses the ConverseJS client)	

The jQuery Sortable Tables feature must be activated for the sort feature to work.
